ROHAN KHARADE

BE in Electronics & Communications, 2015
MS Networks & Telecommunications, Eurecom, France (Pursuing)
Research Engineer, IIT Bombay - Jan 2016 to Aug 2018
   [Meity Project - 5G research & next generation solutions for Indian market]
Research Area - SDN, NFV, WiFi, LTE, TV-White Space, Multiple radio access technologies and their control
Publications -
SDN based Control and Management of WLANs in the 3GPP 5G Network, Jan 27, 2018 Arxiv
Implementing a low cost SDN ecosystem in LAN, Mar 31, 2016 IEEE
Methods & systems for controlling SDN-based multi-RAT communication network, uspto

Thanks a lot GIT, EXTC department & Professors for promoting me to think beyond limitations and pursue a in depth practical knowledge throughout my entire curriculum. I would like to encourage currently studying friends to utilise the resources provided by GIT like library, well equipped labs, internet, enthusiastic faculties, beautiful campus to build ourselves a successful & skilled engineer.

Stay Hungry ….. Stay Foolish ……..
