# DAHI HANDI

**Dahi Handi** is one of the festive events and a team sport during the Hindu festival Gokulashtami, which is also known as Krishna Janmashtami and celebrates the birth of Krishna. Dahi Handi is celebrated every year in the institute, the day after Krishna Janmashtami. It involves communities hanging an earthen pot filled with dahi (yogurt) or other milk-based delicacy, at a convenient to reach height. Young men and boys form teams, make a human pyramid and attempt to reach or break the pot. As they do so, the others do surround them, sing with music, and cheer them on. The event is based on the legend of the Lord Krishna stealing butter and other milk products as a baby (he is also called Makhhan chor), the community hiding the products by hanging them high out of his reach, but he finding creative ways to reach what he wanted. In total, 10 earthen pots were broken in the event of Dahihandi this year in the institute this year. The event also includes pooja at Krsihna Janmashtami day in hostel with bhajan which is done by students of GIT. Dahihandi(15/08/17) as well as Gokulashtami were celebrated and were well organized under the guidance of Prof. Sameer Tathare. Around 300 students participated in the event.
