A report of an expert lecture on

"Importance of Process Simulation in career Journey"

An expert lecture on "Importance of Process Simulation in career Journey" was organized by Department of Chemical Engineering, Gharda Institute of Technology, Lavel, in association with T&P cell and IICHe

The purpose of organizing this lecture was to raise students' awareness of the importance of process simulation for their careers.

The goal of the session was to bridge theoretical knowledge with real-world industrial applications, enhancing their understanding of complex chemical processes. It aimed to develop essential skills in using industry-standard software like Aspen Plus and HYSYS, enabling students to optimize processes for efficiency, cost, and sustainability. Through simulation, students were encouraged to solve problems creatively and make data-driven decisions. This hands-on experience not only prepares them for the job market but also promotes awareness of safety and sustainable practices, making them more competent and industry-ready engineers.

The details of expert lecture are as follows;

Name of Program	Importance of Process Simulation in career Journey
Objective of Program	To enhance students' practical skills in process simulation and prepare them for the industry by connecting theoretical knowledge with real-world applications.
Date & Time	24-08-26 11.00 Am to 12.00 Noon
Resource Person	Mr. Ajay Satpute MANAGING DIRECTOR, CONVERGE ENGINEERING PVT. LTD.
No of participants	49+ 2 Staff
Event coordinator	Prof. J. V. Mapara and Dr. S. D. Ayare
Key points covered	- Importance of Process Simulation - Industry-Standard Software - Bridging Theory and Practice - Problem-Solving and Decision-Making - Safety and Sustainability - Career Readiness
