

Report on Industrial Visit and Safety Awareness Session

The Department of Chemical Engineering, Gharda Institute of Technology and Management, organized an industrial visit to Gharda Chemicals Ltd., Lote Parshuram, Khed, Ratnagiri, for the Final Year. Chemical Engineering students on 7th August 2026, from 10:30 a.m. to 12:30 p.m. The visit was arranged as a part of the Hazard and Risk Laboratory course.

The main purpose of the visit was to give students practical knowledge about industrial safety and electrical safety and to help them understand how safety practices are followed in an actual chemical industry.

During the visit, Mr. Ashirvad Mayekar Safety Manager, Gharda Chemicals Ltd., conducted a session on Industrial Safety. He explained the importance of following safety rules and taking proper precautions while working in the chemical industry. He discussed the use of Personal Protective Equipment (PPE), safe working practices, fire safety, emergency procedures, and identification of workplace hazards. He also shared practical examples from his industrial experience, which helped students understand the topics in a better way.

After that, Mr. C. Shreeniwasan Electrical Manager, Gharda Chemicals Ltd., conducted a session on Electrical Safety. He explained the basic precautions to be taken while working with electrical equipment in an industry. He discussed the importance of proper earthing, electrical isolation, use of PPE, safe handling of electrical equipment, and precautions to avoid electrical accidents. His practical examples helped students understand the importance of electrical safety in day-to-day industrial operations.

Both sessions were very informative and interactive. Students actively participated in the sessions and asked questions to understand the topics better. The interaction with industry professionals gave students a better idea about the safety practices followed in the chemical industry.

The visit was a very useful learning experience for the students. It helped them connect their classroom knowledge with actual industrial practices and understand the importance of safety in the workplace.

The Department of Chemical Engineering sincerely thanks Gharda Chemicals Ltd., Mr. Mayekar, Mr. Swami, and their team for their valuable time, guidance, and support in organizing the sessions and making the industrial visit a meaningful experience for our students.
