A report of an expert lecture on “How to face the interviews”.

An expert lecture on “How to face the Interviews “was organized by Department of Chemical Engineering, Gharda Institute of Technology, Lavel, in association with Training and Placement Cell

The motive behind organizing this lecture was to develop awareness among students about various preparations needed to crack any campus interview.

In past few years it was observed that many students have excellent technical knowledge but they fail to crack the interview due to lack of communication skills and poor performance in the interviews.
